Park Finder Application
The Park Finder application assists the residents and visitors of Delaware in finding stuff to do, more specifically; it assists in finding parks and trails within Delaware. To get acclimated with the application we will take a quick tour and identify each of the buttons and feature of the application. There are several buttons to get you started; the following will describe each.
The buttons within the application are identified below:

Table:

<table>
<thead>
<tr>

<tr>
<td>Find</td>
<td></td>
</tr>
<tr>
<td>Geo-Location Zoom</td>
<td></td>
</tr>
<tr>
<td>Search Point Result</td>
<td></td>
</tr>
</tbody>
</table>

**Basemap Selection**

The first order of business is to select a Basemap to display your search results. Click the Basemap icon and select from the available maps that will appear in the dialogue box, as depicted below.
Map Zoom

Zoom in and out of the map. The same can be accomplished by using the scroll up and down wheel on your mouse or on a mobile device using a pinching motion with your finger and thumb on the mobile device screen.

Find Location

Click the Find button to display the ‘Find Location’ dialogue box and enter an address to search. Click the ‘X’ to close the ‘Location Finder’ when finished.

Enter your search

123 main st, dover, DE

Point identifier

Upon finding the location you will see an icon identifying the location of your search results. Additionally, your screen will zoom to the resulting location.
Advanced Search
The Advanced search will allow you to select which items you wish to reveal in your map. Select the times you wish to display and select the ‘Submit’ button. Keep in mind that most items will not appear unless a sufficient Zoom level has been reached.

Results
The Results screen will appear and show any Park Names or Trails that are identified in your search. The results for the search for “123 main street, dover, DE’ are as follows:

- Kent
- Hazel Farm - Playground
- Cheswold Town Park - Basketball Court
- Lakeshore Village - Picnic Pavilion
- Hazel Farm - Tennis Court
- pedestrian/biking Private Open Space - Village of Noble’s Pond Pathway
Feature Zoom
By selecting the binoculars you will be zoomed in to the selected feature on the map.

Notice the additional features that are now displayed once this particular zoom level has been reached.

Legend
Select the Legend Key to reveal the definition of each of the symbols that are shown on your map. As you zoom out the legend icons will change by revealing or hiding your Park Facilities definitions when visible on your map.
Feature Details
Each item on the map can be selected to reveal additional details and the ability to Zoom to and center on the selected object.

Geo-Location Zoom

When the Geo-location identifier button is selected the screen will reposition and zoom into your location, if on a mobile device with GPS activated or Dover, Delaware, which it the default location. The screen will display a Bullseye instead of the house icon that is used to identify the results of the Location search.

Also notice that the Results screen has changed to reflect the new search. According to the search Results there are no trails within Dover.
Clicking the binoculars will Zoom to the location as depicted below.
